

## Atlas, Tiberghien and T/A economics establish global supply chain tax group

Over the past years, Atlas, Tiberghien and T/A economics have been working towards the formation of a full-scope global supply chain tax group. With the most recent hires of customs experts [Gooike van Slooten](#) in Amsterdam and Jurgen Gevers in Antwerp, we now have a truly multi-disciplinary team of senior tax experts, covering international corporate income tax, transfer pricing and indirect tax, including VAT and customs and excise duties.

Services provided by our global supply chain tax group include:

| Design   | Review  | Align  |
|--|---|--|
| Create an end-to-end supply and value chain within an operational structure that unlocks the potential of your company's key value drivers | Assess your supply and value chain processes to uncover possibilities to improve supply chain efficiency. | Align operational, tax and legal structures and processes to maximize financial and operational benefits during business transformation. |

In combination with our membership of WTS Global, with member firms in more than 100 jurisdictions, we have established ourselves as a key player in advising on the taxation of global supply and value chains.

Key contacts in our global supply chain tax group are:

### Netherlands

- Roelof Gerritsen, partner, corporate income tax
- Frank Schwarte, partner, transfer pricing
- Johan Visser, counsel, indirect tax/VAT
- Gooike van Slooten, counsel, indirect tax/customs

### Belgium / Luxembourg

- Robin Minjauw, partner, corporate income tax
- Andy Neuteleers, partner, transfer pricing
- Stijn Vastmans, partner, indirect tax/VAT
